# **1.0 Introduction**

The information contained in this document will help you to become familiar with your school and offer you valuable advice and information relating to all aspects of your life inside and outside the classroom.

## **1.1 - IHTTI - Mission Statement**

IHTTI is committed to providing a Swiss-quality learning experience to individuals seeking careers in the international hospitality industry. The school pursues a four-pillar approach in developing each individual's potential. This approach focuses on the learner's intellectual attributes, management competencies, operational skills and overall professionalism.

## **1.2 - Vision Statement**

Our aim is to be considered by industry and academia to be amongst the top providers of quality education in hospitality, culinary, tourism and events management in Switzerland. This will be achieved by differentiating ourselves in the education market by focusing on the student and by ensuring that we satisfy their unique needs and wants. It is our goal to recruit motivated and well-educated students and to provide them with the possibilities to succeed in attaining their qualification and in their careers, by providing relevant and quality education. This is our competitive advantage.

## **1.3 - Our Credo**

To achieve our academic and operational objectives, we strongly believe in the following values:

- Success is determined largely by effort and hard work;
- The most important stakeholders at our institution are the students-- we are here for them first, and all efforts are to provide them with the best possible education;
- Students' development is a function of their learning environment;
- Mutual respect and freedom of expression for both faculty and staff is imperative to advance the frontiers of knowledge;
- An awareness of, and respect for, the natural environment is imperative so that our children and grandchildren can enjoy their

heritage;

- Professional and friendly behaviour at all times is a prerequisite for creating a comfortable work and learning environment;
- Our faculty and staff are our most important resource. We firmly believe in, and support, their academic and professional development;
- Decisions and actions should be taken in light of how others might be affected.
- Students and faculty in our organisation must abide by the highest ethical and moral code, fostering the wellness of the environment and working for the greater good.

Our credo serves as a guideline for life at our colleges and the kind of institutional culture we are cultivating. All actions will have an impact on the perception of students, faculty and staff. Therefore actions guided by the credo allow our aims to be achieved.

***Please note that ALL students (including returning students) are expected to participate in the induction activities. Students who arrive late will have their absences counted and may have to forfeit their choice of room, unless a valid reason is provided***

## **3.0 - Code of Student Conduct**

Our schools' priorities are academic rigour, Swiss professional training, multicultural awareness, and a caring approach to the personal development of our students. We aspire to offer an environment where students can grow personally and professionally and acquire the knowledge needed to succeed in their chosen academic programmes.

***Our student compares himself/herself to the best and strives to do better!***

Students are expected to behave in a reasonable and orderly manner at all times. Students are expected to treat each other with respect and tolerance to ensure the quality of living and studying together in a multicultural environment.

The school community, faculty and students have particular aims in reaching personal goals and ambitions. The faculty must teach in an environment that is conducive to learning. The student body must learn processes and principles that will provide knowledge and foundations on which to build future careers. Any individual who is unable to accept the policies of the community, or wilfully tries to disrupt this environment by his or her actions, runs the risk of being expelled from this community.

Correct conduct and excellent academic standing in the school are only

one part of a student's obligations; the other part relates to the student's conduct of his/her private life, namely living within the community of the town, on- or off-campus, in studios and apartments. In an environment such as the one in which we live, we are open to observation, comment and judgment.

### **3.1 - Expectations of Behaviour**

Living with fellow students from diverse and international backgrounds is not only a unique experience, but also a challenge. The mix of cultures, beliefs, religions and styles provides an opportunity for everyone to learn from each other. For the benefit of all, it is necessary to have a Code of Behaviour that enables every individual to live a satisfying lifestyle, to be productive, and ultimately to succeed in their studies. The following five principles form a code of behavior that reflects the needs of the majority, and by which all our students are encouraged to lead their lives here at school:

***Self - responsibility:*** Set yourself the highest possible standards and maintain them under all circumstances. Present yourself each day as the professional person you aspire to be. Attend every class energetically with an open mind and be ready to learn.

***Concern of others:*** No student is more important than any other. Show respect to all and you will earn the respect of others. Moderate your behavior at all times out of consideration for those whom your actions affect. Take pride in creating an atmosphere where all students can grow and succeed. There can be few things worse than lowering the quality of life of a fellow student.

***Respect the surroundings:*** Leave facilities as you would expect to find them – clean, organized and ready for use by others. Respect your surroundings both in the school and in the local area. Damage to property and littering are anti-social acts and unacceptable to everyone.

***Safety and security:*** The welfare and personal safety of every individual is a collective responsibility. Behavior that threatens the well-being of any person is totally unacceptable under any circumstances. In

case of physical aggression towards a fellow student or member of staff, an expulsion from the school is recommended.

**Participation:** Become an active member of the student body. Take part in activities both socially and professionally, and contribute to the development of all areas of the school. Balance your commitment to study with an active and enjoyable social life. Both are important parts of your development.

### **3.2 - IHTTI - Professional Dress Code**

The School expects the following students to dress and present themselves in the school's uniform:

- **Bachelor students Semester 1 to 3 and Postgraduate students**
- **For all other students the Professional business attire applies from Monday to Friday.**

When the students are scheduled (including evening classes should they be timetabled) or are participating in formal or special occasions, (such as school events, formal dining room, graduation, field trips, alumni reunions and ceremonies) school uniform/business attire must be worn by everyone, unless announced otherwise. This includes the school's name badge and pin, which should be worn at all times with school uniform/business dress.

The overall appearance of a student should be discreet, conservative and professional.

*Our student compares himself/herself to the best and strives to look better!*

The professional dress code applies from Monday through Friday starting at breakfast until after dinner, as well as during evening classes and events in all public areas (including but not limited to, classrooms, office floors, reception areas and restaurants). Outside of these hours, on weekends from Friday dinner to Sunday night, during holidays when there are no classes, smart casual dress, including jeans and T-shirts

(or shorts during the summer when physical activities are required) may be adopted but students are expected to ensure that garments are in good taste and in good repair (for example: no ripped jeans). As the school operates in a multicultural environment, and to avoid situations where the way one dresses could unintentionally offend, there are a limited number of items which are not considered suitable for casual attire on campus: beach wear (swimming shorts, swimming costumes, flip-flops, etc.), transparent clothing, visible undergarments and hats (including baseball caps).

Any student who fails to follow the dress code regulations or is considered to be inappropriately dressed, may be requested by a member of staff or faculty to leave class, restaurant or outlet to return to their room and to change their attire to conform with our school's professional appearance standards. Students are reminded that comments on appearance also play a necessary role in contributing to a student's professional development as well as professional conduct and should be perceived by the student as constructive feedback. If a student is in doubt about whether their attire would be considered appropriate they should seek advice from a member of staff.

We reserve the right to refuse any students access to the premises (public facilities included) for being improperly attired/dressed whilst attending the school. These policies are designed to ensure that a professional appearance becomes a habit for all students. In the industry, appearance and image are of the utmost importance if you wish to succeed.

*Furthermore our school follows a "No shirts, no shoes, no service" policy which is extended to include a decent appearance in the bars/restaurant areas and public areas at all times.*

The professional dress code is valid up until and including the official closing of the academic term, unless otherwise advised.

The IRF is a signature event that demonstrates the direct link between SEG schools and the hospitality industry. This relationship allows us to learn exactly what the industry is looking for in our students and graduates, so that SEG can deliver meaningful educational

programmes. In addition, this "visible" link sets SEG apart from our competitors and gives our students a leading edge in the job market. The IRF is scheduled twice a year. Our objectives are clear; to ensure that we can continue to attract top international hotel, event, catering and cruise line companies for our well-prepared students.

## **SEG Sportsday**

## **Refundable deposit**

Please note that the refundable deposit is not subject to any interest rate and may not be utilized for any personal and private expenses. The refundable deposit is a "safety" deposit for the school, from which can be deducted the following (this list is not exhaustive):

- Damages caused directly by you in your room and / or the school.
- Yearbooks.
- Your health insurance premiums during your internships.
- Unpaid school fees < 100 CHF.
- Improper Checkout fees < 300 CHF.

The refundable deposit is only paid once in full. The following semester you will only pay what you have used from your refundable deposit during the previous semester. In other words you will pay once 1500 CHF for your first semester and then you will top up each new semester.

Your refundable deposit will be transferred back to you 6 months after the end of your last academic semester. EXCEPTION: students doing a last mandatory internship in Switzerland after their final academic semester will have their refundable deposit refunded 3 months after the end of their internship.

If we have to use your refundable deposit to make a payment on your behalf a surcharge of 10% will apply and management reserves the right to take further disciplinary measures (for example if we have to pay an invoice on your behalf).

*NB. Students must return their B-Permits, Health insurance card and Room Keys (card and/or key) upon completion of their studies. Failure*

*to do so will result in financial deductions of the refundable deposit.*

## **6.2 - Visa and B-permit**

### **Visa**

Students from countries outside Europe need a visa to enter Switzerland for studies. You need to apply for an entry visa at your local Swiss Embassy or Consulate.

For more information about nationals from countries that require a visa:  
<http://www.bfm.admin.ch>

### **Invitations**

For visa purposes, if you require an invitation from the school for visitors from your country you can contact the administration office of your school.

### **B - Permit (Resident Permit)**

All students studying at our school must be in possession of a valid Resident Permit (B-Permit) issued from the community in which the individual campus is placed. Should a student move from one campus to another, a copy of the Resident Permit is given to the community to notify the change of address. The school will apply for the respective Resident Permit. Students completing their studies or their internship in Switzerland are expected to return their B-permit before leaving the country. The school reserves the right to make a charge, which will be deducted from the student's refundable deposit, for failure to return the permit immediately. The B-Permit is a legal document issued by the local community which allows students to temporarily reside in Switzerland during their period of study which may include the official published internships in Switzerland. The B-Permit is only valid with valid and current medical insurance which is authorized by the local authorities.

The Resident Permit is a study permit and not a work permit; however

internships, being part of the official programme, are permitted. The Resident Permit is only valid for the maximum period of 12 months. It is the student's responsibility to ensure that the Resident Permit is handed in *two months prior to its expiry date* for extension.

The Swiss Resident Permit at the same time configures as a Schengen Visa, allowing students to freely travel to other EU Countries with the exception of Great Britain. Again students themselves must assure that the Resident Permit grants them entrance into foreign countries prior to leaving for the respective countries.

Please note that each student should always be carrying his-her resident permit at all times when in Switzerland (whether in school or on internship) as this is a legal requirement.

Please note that once the student has graduated he/she must leave Switzerland even if his/her B Permit is still valid.

Students taking a break from their studies are themselves responsible to ensure that the visa application process for continued studies is started well in advance with all the proper documents and procedures. This process is the same as it was for when they entered Switzerland the first time. It is not uncommon that this process takes up to 10 weeks.

### **Loss of B Permit**

Please note that if you lose your B Permit you will be charged the following amount (in order to get a new one) : 150 CHF

### **Rule for optional internships**

Please note that as a general rule set by Swiss Immigration Authorities, students are not allowed to do an optional internship in Switzerland after their last academic term / semester of their studies.

This only concerns optional internships in Switzerland therefore:

- If the student wants to do an optional internship abroad it is possible.

- If the student still has a mandatory internship to do, he/she can do it in Switzerland, as mandatory internships are part of the studies.

The only exception to this rule is students doing a direct entry into MIB or MA. Those students are exceptionally allowed to do an internship in Switzerland as otherwise they will not have the opportunity to do so.

## **Contact**

For questions about your B-permit please contact the Student Administration office of your school.

## **6.3 - Health and Accidents Insurance**

### **Medical Insurance**

SwissLaw

As per Swiss law, it is compulsory to have a valid and Swiss approved health and accident insurance during your stay in Switzerland as long as the B-permit is valid.

### **SOS INTERNATIONAL**

**Your single point of contact in case of any needed medical or security assistance 24/7:**

**Tel: +41 (0) 22 719 11 85**

**Membership Number: 22AYCA590432**

### **Coverage by Allianz Worldwide Care**

All students (unless exempted - refer to "Exemptions") are insured by the School's Insurance company (Antaé - Allianz) from the day of arrival until the expiring date of B/L permit (or until the day of your departure from Switzerland) for the following risks:

- Sickness: Medical cost, daily costs of hospitalization in a shared room, medication as prescribed by a doctor.
- Accident on and off school premises.

A document outlining in detail what is or is not included in the insurance coverage (e.g. not included: orthodontic treatments, dental care or request of a private room instead of a shared room...etc.) will be handed out to each student upon arrival. And a copy can also be obtained with the Student Affairs coordinator in each school.

Please note that in case of accident or sickness linked to drug or alcohol abuse no refund will be possible.

Furthermore, please be aware that if you need to undertake supplementary medical exams or vaccinations, which may be required by an internship employer or a visa application, these costs are not covered by your medical insurance. You will have to undertake these costs privately.

## **Private civil liability plan**

Included with the health coverage each student now also benefits from a private civil liability plan valid worldwide (excluding USA and Canada). This covers for personal injury or material damages to a third party for up to CHF 3 million. However there is CHF 200 deductible by claim.

## **Cost of the insurance**

### **During Academic Term**

During your academic terms / semesters, the health insurance premium is included in the additional charges.

### **During Internship**

During the internship period, the student must pay his health insurance premiums. In order to make the process easier the full premiums will be

deducted from the "refundable deposit". However in some special cases the school reserves the right to ask for the student to pay directly for the premiums (in case there are insufficient funds on the deposit).

As long as the B Permit is valid the student must have a valid health insurance. This is a requirement from the Swiss authorities. Therefore, when on internship, ALL students must keep their health insurance wherever they are. For all students the monthly premium is CHF 135.00.

## **Insurance exemptions**

The following students can be exempted from the compulsory Health and Accident Insurance:

- European students with a valid European Insurance Card E-111

The following students cannot benefit from the school's health insurance, according to Swiss regulations:

- Swiss citizens (please provide copy of your insurance card or contract)

Important: Exemption requests must be submitted to the Admissions / Insurance Coordinator at the latest 2 weeks after the arrival at school! No exemption requests will be accepted after this period.

Please remember that if you are exempted from the insurance, absolutely NO medical expenses (invoices for hospitals, doctors, medications etc.) are covered by Allianz / SEG and you will have to request yourself from your own insurance company in your home country. All information given in this document about insurance is valid only for students who are not exempted.

Students who are exempted get a monthly refund of 85 CHF during academic months. All exemption requests will be sent to the official cantonal insurance department (OCC or SAM) for approval. This is done by the Administrations / Insurance Coordinator who will then inform you

by email if your exemption request was approved or rejected.

Important: It is important to remember that if you are exempted from the Swiss Insurance, all medical expenses must be paid by yourself or your insurance company. If you visit a doctor, pharmacy or hospital you will be responsible yourself for the payment of all bills related.

## **Insurance Cards**

### **Use of the Allianz Insurance Cards**

At the arrival weekend or during the 2 first weeks of the term, you will receive your 2 insurance cards (unless you are exempted from the insurance) showing your name, given name and insurance number. You should always carry these insurance cards with you (in your wallet). In case you need to visit a doctor or hospital you have to present these cards.

All medical bills will then automatically be sent to the insurance company.

You will keep the same insurance cards during the complete length of your studies unless advised otherwise, including internships. The insurance number will remain the same for the entire period of your stay in Switzerland.

### **Loss of the Allianz Insurance Cards**

If you lose the insurance cards, you have to contact the Student Affairs Coordinator to request a copy. As soon as he/she has received the copy he/she will send you an email and you can collect the cards.

### **Blockage of Insurance Cards**

If you cancel your insurance at the end of academic term or after completion of your internship (if your B permit is cancelled), your Insurance cards will be blocked and the insurance coverage cancelled. You are no longer allowed to use your insurance card when visiting a doctor, pharmacy or hospital but must pay the medical bills yourself.

When you have finished your studies please return your health insurance cards to the school.

## **Medical Bills - Medical Assistance**

### **Doctor's visit**

If you feel ill, you should approach the student counselor, the front desk or the resident supervisor. If required, they will arrange for an appointment with a doctor.

### **Hospitalization**

In serious cases (e.g. accidents) you may need to be hospitalized. The insurance covers all cost - as indicated in the "General Insurance Conditions" including accommodation in a shared room.

### **Pharmacy/Medication**

If the doctor gives you a prescription for medication, you will need to go to a pharmacy, show them the prescription and your medical cards. However, please note that the insurance company does not cover any medication you get from the pharmacy if it was not prescribed by a doctor. Some prescribed medication (e.g. skin care products) might not be covered by the insurance.

### **Payment of medical bills**

It is important that you never pay for your medical invoices (pharmacy, doctor, hospital) but present your insurance card instead. The pharmacy, doctor or hospital will then send the invoice to SEG who forwards them to Antaé - Allianz for payment. In case an invoice is given directly to the student, the student has to hand over/send the invoice immediately to the Student Affairs Coordinator.

Exemption: For medical glasses and contact lenses, you will have to pay first to the provider/shop and can then give the receipt to the Student Affairs Coordinator who will submit it to the insurance company to request a refund.

Note 1: Should you not have received your insurance card, you will have to inform the pharmacy that you are insured with Antaé - Allianz but do not yet have received the Insurance Card. They will then call the insurance company Antaé - Allianz or - the Student Affairs Coordinator in your school (phone number on your student ID-card) to check.

Payment by Allianz Worldwide Care

The insurance company pays 100 % of all treatment and medication on prescriptions, which are covered.

## **Uncovered invoices**

If you have requested medical treatment which the insurance doesn't cover, the amount of the invoice will be deducted from your deposit or you will receive an invoice from your Student Affairs Coordinator which you then have to settle within 30 days with the enclosed payment slip. Note: Dental care is not covered by the insurance company.

Important Information: Please note that if a student is taken to hospital by ambulance, due to excessive alcohol consumption, the insurance company will NOT reimburse the cost of the ambulance.

### ***General Room Check***

As an integral part of maintaining a safe and secure environment, General room checks are carried out to ensure that the room occupant's activities conform to the rules and regulations of the school. The rules and regulations have been based on health, safety and security grounds.

The following infractions will be reported to the management of the operations department; evidence of smoking, drinking alcohol and cooking in room. Note that no pets are allowed.

Rooms that are found to be below standard (cleanliness of room, not aired, dirty/cluttered surfaces and floors, lights & electric equipment left on, window open during heating period, cooking/BBQ equipment, linen not put on the bed, clothing piled up on the floor, damage to room and equipment) will be noted. Repetitive breaches can lead to a student being asked to live independently outside of school accommodation without any refund and at the students own expense.

General room checks are carried out at regular intervals by the Residence Management Team and Housekeeping Team as part of Housekeeping assignments, normally on a fortnightly basis, between 08h00 and 18h00. These room checks are limited to checking that the room is presented in a professional & safe manner. In particular, that the room is aired, lights and electrical equipment are in good working order etc. These checks are limited to the visible areas of the bedroom and do not include private areas such as the students' cupboards, bags etc.

***By accepting these regulations the Student expressly allows that such General room checks are carried out also in his/her absence.***

He/she also takes note and accepts that in case of an emergency the school staff, fire department, or the police may immediately intervene and access his/her room in any case and at any time. Students should note that all valuables, including money, jewellery, etc. must be secured

in the safe, if provided. Students who do not have a safe in their room may deposit valuables in one of the school safes for the first week.

### ***Full Room check***

Full Room checks, normally carried out by 2 members of staff, will not take place, if, when announced, a Student expressly refuses such a Full room check. It will in any case take place only when the Student is present. During such Full room checks the Student may be requested to allow his/her personal belongings, bags or cupboards to be checked. The Student takes note and accepts that in case of an emergency the school staff, fire department, or the police may immediately intervene and access his/her personal belongings in any case, even in his/her absence.

### ***General principles Regarding Room checks***

The school respects the fact that the Students' room and their personal belongings are private. Should a Student consider that a room check was carried out in breach of his/her rights as described above, he shall immediately, without any delay, inform the Operations Director/Manager or Assistant Operations Director/Manager. In the absence of such immediate complaint, it will be considered that the student has accepted the corresponding room check and carried out in accordance with the above- mentioned regulations.

The refusal to have a room checked allows the School to request the Student to live outside of school accommodation for future terms and in serious situations, i.e. when the school has serious reasons to believe the Student is in breach of the School's regulation or of the law, may lead to a student being asked to immediately vacate accommodation and / or leave the school. Students who prefer to be free of the above constraints are free to live independently and will receive a discount on school fees of the actual term/semester.

## **13.8 - Room Check-Out**

Upon arrival students will complete a Induction Procedure to ensure that their room is in a good working condition. You are asked to follow the check-out procedures that you received from the Front Office. The rooms will be checked according to the Room Check Reservation schedule at the Front office. Once the room check has been controlled

by the staff member in charge, the room will be closed and the room key should be handed back to the staff in charge. Your room must be returned to the school in the same condition as you found it. A penalty fine will be invoiced for a late check-out, or if check-out formalities and conditions are not correctly completed, a charge will be made for lost room keys and/ or missing or broken furniture.

### **13.9 - Public Facilities**

During the past years, your school has invested extensively to further upgrade and improve facilities available. We expect all students to treat these facilities with the required care and report any damage made to the Front Office or Residence Supervisor.

#### ***Main Lobby***

The school main lobby is the heart of the school. You will have wireless internet access and can enjoy the spacious and comfortable environment to socialise with friends and work in groups. As it is located in a crucial spot within the school property we expect an exemplary behaviour and professional attitude at all times.

Numerous common areas are available to students for social gathering, group work and study. The school expects you to behave professionally while patronizing those areas and that you respect the material, furniture and equipment displayed in those spaces.

### ***Outdoor Areas***

The school offers outdoor facilities that you are welcome to use. It is normal that high standard of cleanliness and tidiness is expected from the school and that you should use the ashtrays and the trash container. We are also concerned about the environment and the beauty of the sites we are living in and therefore expect the same from any student.

## **13.10 - Teaching Facilities**

Educational programmes are delivered to students in modern, well-equipped facilities. You have the possibility to book a classroom every day of the week when available in order to further study. Classrooms are available from 18:00 to 02:00. Therefore, reservations are possible for a maximum of 4 hours per student or group and should be done at the Academic Office from 13:00 to 16:00. During business opening hours, the Academic Office can exceptionally reserve a classroom for students and will therefore be responsible for opening the classroom and for its room control.

- You need to meet the staff member of the Academic Office (not the Residence Supervisor), in order to confirm your classroom booking. The Residence Supervisor is not authorized to open a classroom for you, if this procedure is not respected.
- The Residence Supervisor will not automatically open the classroom for you. Instead, you will need to call the Residence

Supervisor. The Residence Supervisor will come to your booked classroom, and together, a control will be carried out, in order to ensure that all is in order.

- As soon as you finish using the classroom, you will have to call the Residence Supervisor. He/she will then control the classroom once again together with you. He/she will ensure that you did not move any furniture and unplug cables. Do not forget, that the person listed on the booking list will be fully responsible for the classroom. Please note, the Residence Supervisor or Academic Office only open and close the classrooms according to the reservation timings.

For an organizational point of view, please take note that the Housekeeping Team has the authorization to enter your room for cleaning from 0800 to 1700.

#### ***Change of Towels and Bed Linen***

The housekeeping staff changes towels once a week and bed linen once every other week. Rooms are cleaned and vacuumed once a week. Your room and bathroom should remain clean and orderly at all times (desk tops tidy, waste paper bins emptied, no luggage in the room, no clothes lying around, shutters open, white sheer curtains drawn and the floor clean).

Students are responsible for the cleanliness of their own rooms. Students must make their beds before breakfast or before attending their first class. Students may not wash or hang clothes in their rooms

or on balconies. Please be advised that no items such as laundry, food or drinks should be placed on the window sills. Failure to follow the above will lead to disciplinary action.

Your room must be made accessible for Housekeeping as per the cleaning schedule. On the designated day, please take your linen off the bed and put it together with the towels in an orderly pile on the floor. After clean linen is received, it has to be put on the bed by the resident student the same day.

4	Warning letter 4	Poor Professional Conduct
5 or Final Warning	Final Warning	Failed Professional Conduct
Breach 6	Disciplinary Meeting	Failed Professional Conduct

Minor breaches will lead to warning letters being given to students. 4 warning letters after 4 minor breaches will lead to a final warning

letter. Any further breaches in the Code of Conduct will lead to a disciplinary meeting where expulsion will be recommended. A student may be suspended from classes while awaiting the decision of the Disciplinary Board as to whether the student should be allowed to continue their studies or be expelled from school.

Once a formal written final warning has been issued, a second offence will lead to a disciplinary meeting. If the student is found to be responsible, an expulsion from the school will be recommended.

#### **15.4 - Operational Final Warning Letters**

Except in extreme cases, students will have been subject to prior disciplinary procedures. Therefore, in all but the most serious cases it will be expected that students being considered for expulsion will have been issued with and signed a written final warning. Final warnings can only be issued by the; Academic Director, Academic Dean, Assistant Academic Dean, Operations Director, Operations Manager and Assistant Operations Manager. The rationale for evidence supporting the issuing of a final warning must be clearly documented in the student's file (evidence may comprise of written staff reports, absence sheets, statements by the student or witnesses, blood/medical test results etc.)

This final warning may be sent to the student's parents, guardian, sponsor and school representative. All final warning letters must be produced within 72 hours of the incident, so that the student concerned is aware of their predicament and that they may be subject to expulsion if they re-offend. A final warning is carried forward into the subsequent terms at school.

It is essential that all students who are on final warnings are monitored carefully, both academically and socially. As such, the administrative staff member who issues the final warning must inform all relevant staff (decision of the Disciplinary Board) when a final warning has been issued. Students on final warnings are informed that they will be expelled if they infringe the rules in any way, and it is important that this condition is observed if the final warning is to have any meaning.

#### **15.5 - Disciplinary Board Overview**

Students, parents and guardians are herewith advised that a student, after having received a final warning, or having committed a serious offence, such as being in conflict with Swiss law, including repeated traffic offences, drug possession or consumption, violent conduct (alcohol-related or not) in or out of school, may be dismissed from school immediately.

In cases of serious suspected breach of disciplinary rules, any alleged misconduct or other cases of suspected breach of the Code of Conduct, the student may be placed on immediate interim suspension by the School management.

Interim suspension means non-attendance to classes, with the right to remain in school accommodation. Interim suspension is designed to allow the necessary lapse of time in order to fully investigate the accusations of the breach of conduct.

A Disciplinary Board will convene to decide what action should be taken in accordance with the results of the investigation, and call for a disciplinary meeting if deemed necessary.

The Disciplinary Board can consist of:

- Operations Manager and/or Assistant Operations Manager
- Academic Director, Academic Dean, Asst Academic Dean
- Programme Manager / Head of Department
- Executive Academic Assistant (minutes)
- Student Counsellor

The Disciplinary Board may take the following actions:

1. Restriction to room - school - room: This means that the student has restricted movement from his/her room to the school and back to his/her room. The board will decide the length of this restriction. If the student in question breaks this restriction, he/ she will face suspension and/or expulsion;
2. Suspension from class temporarily or for the term: The board may suspend a student for any reasonable length of time, meaning that the student is excluded from classes. He/she may have the possibility to stay in his/her room but will have no access to the

school. The days that the student is suspended will not be counted as absences. Term suspensions mean that the student in question is suspended from the school and all school premises. He/she must hand in their keys, resident permit, and follow the early departure procedures;

3. Expulsion: The Board, in extreme or repeated situations, can apply expulsion/dismissal. This means that the student in question is expelled from the school and all school premises. He/she must hand in their keys, resident B-permit and Health Insurance cards and follow the early departure procedures;
4. Student requested to be accommodated in one of the school's external accommodation or Student asked to find his own accommodation;
5. Any other measure deemed appropriate by the board.
6. No financial refund will be given for the time of suspension or in case of dismissal.

## **Disciplinary Boards Procedure**

Expulsion can only be considered and decided at a full Disciplinary Board. A member of the school's management must chair disciplinary Boards. In the cases where students have contravened academic rules, as a minimum the Academic Director / Dean or Assistant Academic Dean and the appropriate Programme Manager should attend the Board. In cases where students have contravened non-academic matters, as a minimum the Operations Director, Operations Manager or Assistant Director of Operations and relevant staff member should attend.

The student concerned must be presented in person with written notification that a Disciplinary Board will sit to consider his/her case. This is necessary since students who fail to attend a Board they have been notified of will still be eligible for expulsion.

Full evidence, (as detailed above) of the issue in question must be available for the Board to review (in most cases the Executive Academic Assistant will be responsible for compiling this evidence).

Full minutes must be taken of all Disciplinary Boards (usually by the

Executive Academic Assistant) and will be lodged on the Student File. A copy of the minutes may with the permission of the student be sent to parents, guardians and/or sponsors, as well as to the representative or agent of the student.

If the decision of the Board is to expel, the student concerned must be clearly informed of this and of the implications of this decision in the immediate and longer term. The parent, guardian, sponsor, agent, and school representative of expelled students must be informed of the decision to expel as soon as is practicable after the Board meeting.

The Executive Academic Assistant is responsible for coordinating the communication process. All students who are expelled forfeit all fees they have paid to the school, including their deposit.

A 'Early Departure Form' must be completed for all expelled students prior to their departure. It is the responsibility of the Executive Academic Assistant to ensure this form is completed fully and circulated to all relevant staff. The original copy of this form must be lodged on the student's file.

The B permit and insurance of expelled students should be cancelled as soon as practicable after their expulsion, by the Admissions office.

## **15.6 - Expulsion Policy**

It is our objective to offer students every opportunity to complete their chosen academic programme. However, it is regrettable that the actions of certain students mean that we have no other option than to expel, which necessitates the need for clear and robust policy and procedure.

It is essential that the grounds for expulsion be clearly and unambiguously stated in the Student Handbook. Students cannot and will not be expelled unless the offence they have committed is clearly identified as warranting expulsion in the Student Handbook.

### ***Departure of expelled students***

Expelled students are required to leave the school premises and follow early departure procedures. If necessary, assistance will be provided for booking flights / making travel arrangements.

In cases where students are felt to pose a danger to the school, the Chair may decide to use part of the student's forfeited fees to repatriate him/her. In cases where students are considered to pose a danger to themselves, to staff or other students, the Chair may require that the student be chaperoned prior to their departure.

The arrangements for repatriating expelled students are made and coordinated by a member of staff, usually from the Admissions department.

## **15.7 - SEG Grievance Procedures**

In case of a Grievance the student should follow this procedure.

**Informal concerns:** Concern should be brought to the person closest to the concern (issue) , who will then try to solve(resolve) the issue. If the issue is not resolved the concern is brought to Head of department or Management who will then try to solve the issue, if not resolved it becomes a formal concern (see below).

**Formal concerns:** Formal Concerns should be brought by the student to the staff member involved and try to resolve the concern. If the concern is substantiated and not resolved the concern should be reported to Head of Department, who will work on resolving the concern and the student is informed. If student is still dissatisfied their concern will be sent to the Head of school for evaluation. If there is still dissatisfaction with the case it may be brought to SEG directorate. If dissatisfaction continues the concern may be taken to the external appeals board who will take a final decision.

## **15.8 - SEG Appeals Procedure**

### **Objective**

The objective of the Appeals Board is to assist any student who feels that he/she has been treated unfairly. This ensures that any person occupying a position of authority/power applies the rules and regulations in a fair and just manner. The student handbook is the legal document for both student and appeals board to refer to.

## **Appeals Policy**

Students are allowed to appeal if they have followed the correct internal complaints procedure in its entirety. Following this if a student still feels they have been discriminated against in that the process has not been applied fairly a case with the external appeals board may be submitted. The basis for this appeal must center on discrimination or unfair treatment but not academic judgment. The appeals board will judge as to whether the process as documented in the student handbook has been applied fairly.

The fee for an appeal is 450 CHF. The complaint will be reviewed by the appeals board whose decision will be final and accepted by both the student and the school. If the appeal is upheld the appeal fee will be reimbursed.

## **Appeals Process**

- The appeal must be submitted in the form of a letter or report, in English or French.
- The appeal must be addressed to the Appeals Board, which the Academic Dean/Director of the school will provide.
- An appeal fee of 450 CHF must accompany the appeal.

## **Correspondence will follow with:**

- The student;
- The Academic Dean/Director;
- Other persons as required.

- The Board will take a decision based upon a majority vote and inform all parties in writing of the result.
- The decision of the Board is final. Should a student's appeal be upheld, the appeal fee will be refunded.
